

[Mobile App Developer \(part-time\)](#)

[Junior Android Developer \(part-time\)](#)

Mobile App Developer (part-time)

We are looking for a Junior Mobile Developer (iOS or Android) who possesses a passion for pushing mobile technologies to the limits and will work with our IT team to design and build the next generation of our mobile applications.

This position is ONLY available at our Sibiu location. Please apply only if you are willing to relocate to Sibiu.

What do we need from you?

- - Basic knowledge in object-oriented design, data structures, algorithm design.
- - Conceptual and innovative thinking, quality-oriented work;
- - Strong customer and service orientation, high level of initiative;
- - Advanced command of written and spoken English;
- - To be passionate about new technologies.
- - The ability to easily familiarize with a business software;
- - To have an "I can do it!" attitude and a heart of a team player.

You will be advantaged if you have:

- - Knowledge of Android SDK / Xcode environment;
- - Knowledge of programming in Objective-C, Swift, Java or PHP language;
- - Experience with source code version control such as SVN
- - Knowledge using APIs;
- - VoIP communication basics.

Things you will do:

- - Design and develop new mobile apps;
- - Integrate and test with various mobile devices;
- - Integrate with other platforms using APIs;
- - Handle data structuring, creation of modular and reusable applications which will function appropriately for long periods of time running in a distributed environment;
- - Ability to work and deliver results without close supervision;
- - Help to solve problems that can occur in production applications (including security risks and bugs);
- - Study the current and emerging technologies to support e-commerce efforts of the company;
- - Support team to reach a consensus to solve critical tasks.

Why join us?

Because you are looking for an environment able to help you grow professionally by offering you the chance to work on challenging projects alongside some of the most talented people you've ever met.

Also, we offer:

- - Flexible schedule in an established company;
- - Competitive salary and other benefits;
- - Modern office space and the right tools;
- - Training and conference participation opportunities;
- - Medical benefits at Polisano;
- - Open and collaborative environment encouraging professional development;
- - Exposure to an international environment in a company with multifaceted global operations.

Who is KeepCalling?

KeepCalling is one of the leading telecom providers on the market and among the fastest growing businesses in the USA, as it has ranked in the Inc. 5000 list every year since 2011. KeepCalling was founded in 2002 in the state of Georgia, USA and now has offices in the US, Romania and Bolivia.

At the moment, KeepCalling provides telecom services to hundred of thousands of individual customers and businesses. KeepCalling's products are primarily targeted to ethnic and immigrant communities around the world. KeepCalling strives to offer the most accessible and easy to use services on the market, while the main focus of the company remains customer satisfaction.
