

Introduction in Oil & Gas Industry

October 30th 2017, 09:00

Faculty of Engineering, room IE 102

Sibiu, str.Emil Cioran, no.4

Event dedicated to students from study program:

Transportul, depozitarea și distribuția hidrocarburilor (TDDH)

The presentation is like a journey through entire Oil & Gas activities starting with hydrocarbons genesis and finishing with put well in production:

- A briefing of Romanian oil & gas history;
- Genesis of hydrocarbons ;
- Geology and geophysics elements;
- Exploration of hydrocarbons and how will be produced (types of oil and gas reservoir, IOR methods);
- Drilling (rotary method principle, drill bits and core heads, drilling mud, drill string, casing running and cementing, directional drilling, sand control aspects, offshore drilling);
- Oil and gas exploitation (well perforation, artificial lift)
- Briefing on shale oil and shale gas.

AGENDA

Time	Speaker Name	Speaker Title	Activity
09:00	Liviu-Ion Rosca	Faculty of Engineering Dean, Lucian Blaga University	Welcome Speech
09:15	Vasile Badiu	SPE Romanian Section Next Generation Advisor	What's the Society of Petroleum Engineers?
09:45	Alexandru Dragomir	SPE Romanian Section Chairperson	About SPE Romanian Section The Way Forward
10:00	Dumitru Gherghiceanu	Senior Department Manager Drilling Operations, OMV Petrom	Introduction in Oil & Gas Industry
14:00			Conclusion

Contact: Ion Foidas – SPE Medias Group Chairperson
