Call for applications:
Three scholarships for international Computer Science students

Study Software Systems Engineering at one of the best universities in Germany

The Hasso Plattner Institute (HPI) awards three scholarships to particularly motivated and talented students to pursue the Master's degree in Software Systems Engineering in Germany. Scholarships are open to applicants with foreign citizenship and stateless individuals.

The study program:
The English Master's degree Software Systems Engineering is the right program for anyone who wants to deepen their knowledge in one of the most relevant fields in computer science at one of the top universities in Germany. Together with companies from business and industry, complex solutions are developed during the Master's program that advance the digital transformation.
> All information on the program.

Hasso Plattner Institute as a study location:
Close to the global metropolis of Berlin, the HPI welcomes its students to the Griebnitzsee campus in Potsdam. HPI is equipped with the latest information technology. Benefit from close student-faculty ratios and gain experience working on practical topics and questions.

With the Master's degree in Software Systems Engineering, you will study at the joint Digital Engineering Faculty of the University of Potsdam and the HPI. The University of Potsdam is represented in international ranking lists such as Times Higher Education and Nature's Top 175 young. HPI achieves top ranking in the German CHE ZEIT ranking every year.

Scholarships:
This scholarship program offers you the opportunity to continue your academic education in Germany with a postgraduate course of study in Software Systems Engineering (M.Sc.). The scholarships are exclusively for excellent international students who have completed their first academic degree no later than the beginning of the winter semester 2023/24. The scholarship is for the amount of **1,100 €** per month for up to 24 months. Apply until April 30.

> Apply now!

> **Online information session:** March 30 at 6.00 pm (CEST / UTC +2)
